

REQUIREMENTS AND EXPECTATIONS FOR PRESENTERS AT
NRC ALTERNATIVE FORMAT SESSIONS

Congratulations. Your colleagues have judged your alternative format proposal worthy of occupying one of the limited slots on the NRC program this year. The work reported or perspectives shared at an alternative format session are intended to become part of the archival literature of the field. Thus, acceptance of your proposal entails the following professional responsibilities:

1. **Preparing your talk**, using time parameters discussed with session chair.
2. **Making your paper or summary available** to colleagues who attend your roundtable and to other interested colleagues who cannot attend. This responsibility can be met in, preferably all of, the following ways:
 - a. Bring 15-20 hard copies of your paper to distribute at the session
 - b. Upload your paper to the NRC Conference website [instructions to be sent via e-mail in September]
 - c. Send your paper to the ERIC clearinghouse: <http://www.eric.ed.gov/> [click on “for authors”]
 - d. Posting your paper on a personal website or university repository providing open access.
3. **Preparing a coherent oral presentation** that is consistent with your proposal.
4. After the conference, **consider submitting your paper to the NRC Yearbook**. See the following website for details: <http://www.nrconline.org/yearbook.html>
